PROFESSIONAL SUMMARY

Senior iOS Engineer with 9+ years of experience designing, architecting, and shipping 15+ production iOS applications on the App Store across FinTech, E-commerce, Event Management, and Enterprise domains. Expert in Swift, SwiftUI, Objective-C, UIKit, Combine, and MVVM / Clean Architecture. Proven track record of integrating secure payment gateways (Stripe, Apple Pay, Tap to Pay, Paytm), Firebase services, REST APIs, and Siri / SiriKit. Skilled in AI-assisted development workflows using Claude, ChatGPT, Gemini, GitHub Copilot, and Claude Code for accelerated coding, debugging, and code review. Delivered apps serving 10,000+ active users while consistently maintaining 4+ star App Store ratings. Passionate about clean code, performance optimization, mentoring developers, and driving Agile / Scrum delivery.

CORE TECHNICAL SKILLS

Languages: Swift 5.x, SwiftUI, Objective-C, C++, C, Kotlin (basic)

iOS Frameworks: UIKit, SwiftUI, Combine, Core Data, Core Animation, AVFoundation, MapKit, WidgetKit, Live Activities, SiriKit, App Intents, StoreKit, PushKit, CallKit, HealthKit

Architecture & Patterns: MVVM, MVC, Clean Architecture, VIPER, Coordinator Pattern, Dependency Injection, SOLID Principles, Protocol-Oriented Programming

Tools & IDEs: Xcode, Instruments, TestFlight, App Store Connect, CocoaPods, Swift Package Manager (SPM), Carthage, Fastlane

Backend & Cloud: Firebase (Authentication, Firestore, Realtime Database, Cloud Messaging, Crashlytics, Analytics, Remote Config), REST APIs, GraphQL (basic), JSON/XML parsing, WebSockets

Payments & Commerce: Apple Pay, Tap to Pay on iPhone, Stripe SDK, Paytm SDK, Instamojo, In-App Purchases, PCI-DSS compliance

Integrations: Google APIs, Maps SDK, Facebook SDK, Twitter SDK, Google Sign-In, Apple Sign-In, Seat.io, AdMob, Crystal Reports

Testing & QA: XCTest, XCUITest, Unit Testing, UI Testing, Snapshot Testing, TDD, Code Reviews

Version Control & CI/CD: Git, GitHub, GitLab, Bitbucket, Fastlane, Jenkins, GitHub Actions

Methodologies: Agile, Scrum, Kanban, Sprint Planning, JIRA, Confluence, Trello

AI-Assisted Development: Claude (Anthropic), ChatGPT (OpenAI), Gemini (Google), Claude Code, GitHub Copilot, Cursor IDE, Prompt Engineering, AI-Assisted Debugging, AI Code Review, Pair-Programming with LLMs, AI Workflow Configuration & Management

On-Device AI: Apple Intelligence, AI Integration

Other: Push Notifications, Deep Linking, Universal Links, Localization (i18n), Accessibility (VoiceOver), App Store Optimization (ASO), GDPR

PROFESSIONAL EXPERIENCE

Senior iOS Developer — Xopple Infotech Pvt. Ltd., Ahmedabad, India

Dec 2020 – Present

- Led end-to-end iOS development of 8+ production apps using Swift and SwiftUI, supporting 10,000+ active users with 99.5% crash-free sessions.

- Architected **Endless Event Organiser** and **Endless Event** ticketing platform integrating Seat.io seat charts, Apple Pay, Tap to Pay on iPhone, and Stripe — processing real-time bookings for live events.
- Designed and shipped **Xpenza**, a personal finance tracker supporting 34+ currencies, Siri Shortcuts, Live Activities, smart budgets, and savings goals — improving user retention by 30%.
- Integrated Stripe, Paytm, and Instamojo SDKs with PCI-DSS compliant transaction handling, reducing payment failure rate by 25%.
- Implemented Firebase Authentication, Firestore, Realtime Database, Cloud Messaging, and Analytics, enabling real-time data sync across 5+ products.
- Built **Prominent** and **Rapid Route Management** enterprise admin tools with live GPS tracking, multi-threaded background sync, and reporting dashboards used by field teams.
- Mentored 4 junior iOS developers, conducted weekly code reviews, and introduced SwiftLint and unit testing standards — reducing post-release bugs by 40%.
- Drove migration of legacy Objective-C modules to Swift, improving build time by 35% and reducing crash rate by 20%.
- Integrated AI-assisted development workflows (Claude, ChatGPT, Gemini, Claude Code, GitHub Copilot) into daily engineering — accelerating feature delivery, automating code reviews, and improving debugging efficiency across the team.

Mobile Developer — Ridgeant Technologies, Ahmedabad, India

Jan 2018 – Dec 2020

- Developed and maintained 6+ consumer iOS apps across social, sports, and wallpaper categories, achieving consistent 4+ star ratings on the App Store.
- Built **ScreenBeauty UHD Wallpapers** with a curated catalog of 118,000+ UHD wallpapers, optimizing image caching and lazy loading to handle large datasets smoothly.
- Implemented Auto Layout and adaptive UI ensuring pixel-perfect rendering across all iPhone and iPad screen sizes.
- Integrated Facebook, Google, and Twitter SDKs for social login, sharing, and content distribution.
- Monetized consumer apps with Google AdMob, increasing ad revenue by 45% through optimized ad placement and segmentation.
- Collaborated with cross-functional teams (designers, backend, QA) using Agile / Scrum methodology and JIRA for sprint tracking.

iOS Developer — Kashvi Infotech, Ahmedabad, India

May 2016 – Jan 2018

- Engineered E-commerce and diamond retail iOS applications with complex product catalogs, cart, checkout, and wishlist flows.
- Implemented Firebase push notifications, in-app messaging, and real-time chat features, improving user engagement by 50%.
- Partnered with backend teams to design RESTful API contracts and JSON data models, reducing API response payload by 30%.
- Owned full App Store submission lifecycle including signing, provisioning, and review compliance.

iOS Developer — Byte Era Technology, Ahmedabad, India

May 2015 – Apr 2016

- Built kids' learning, SMS, and messaging apps using Objective-C and Storyboard-based UI.
- Gained hands-on experience with iOS SDK fundamentals, Core Data persistence, and App Store submission process.

Junior iOS Developer — AGILE Infoways Pvt. Ltd., Ahmedabad, India

Dec 2014 – May 2015

- Completed intensive training program in iOS development covering Objective-C, MVC architecture, memory management, and core iOS frameworks.

KEY PROJECTS (PUBLISHED ON APP STORE)

#	Project	Domain	Period	Tech Stack
1	Endless Event Organiser	Event Management	Feb 2024 – Present	Swift, SwiftUI, Firebase, Apple Pay, Tap to Pay, Seat.io, Facebook API
2	Endless Event	Event Ticketing	Jun 2023 – Present	Swift, Firebase, Payment Gateways, REST APIs, Google Analytics
3	Xpenza — Expense Tracker	Personal Finance	2024 – Present	Swift, SwiftUI, Firebase, Siri, Live Activity, Multicurrency
4	PRM Top Up	Game Validation	Oct 2024 – Present	Swift
5	Spinzy Top Up	Utility	Mar 2024 – Present	Swift
6	DoorVenza	E-commerce	Dec 2023 – Present	Swift, Firebase, REST APIs, Payment Gateways
7	Prominent Route Management	Enterprise / Admin	Jan 2020 – Present	Swift, GCD, REST APIs
8	Promitool	Admin Panel	Jan 2022 – Present	Swift
9	Vertex	Scanner	Apr 2022 – Dec 2022	Swift
10	Rapid Route Management	Enterprise / Admin	Sep 2021 – Sep 2022	Swift, GCD, REST APIs
11	ScreenBeauty UHD Wallpapers	Photo / Wallpaper	Feb 2018 – Jan 2019	Objective-C, Swift
12	GetMatchfit	Sports & Fitness	2018	Swift, Firebase
13	CollegeLife	Social / Education	2017	Objective-C, Swift, REST APIs
14	18Carati Diamanti	Diamond Retail	2016	Objective-C, REST APIs
15	Earthcon	Infrastructure	2016	Objective-C

EDUCATION

Bachelor of Engineering — Computer Engineering

Hasmukh Goswami College of Engineering, Gujarat Technological University | 2015 | CGPA: 6.18

LANGUAGES

English (Professional), Hindi (Native), Gujarati (Native)

PERSONAL DETAILS

Date of Birth: 21 July 1992 · Nationality: Indian · Location: New Naroda, Ahmedabad – 382330
